Adobe 2020

Adobe Certified Associate (ACA) certificate was created for the workplace demand for digital media skills—creating, managing, integrating, and communicating information by using Adobe’s video, graphic, web, illustration, or design software—is on the rise. When someone becomes ACA certified, it validates their technical abilities and demonstrates proficiency. Adobe’s ACA certifications are based on research about digital communication skills required by industry, government, and education. The exam objectives reflect the expertise needed to be successful communicators in today’s digital world. In educational settings, industry-recognized certification programs ensure students and teachers are acquiring the knowledge and abilities valued in today’s workplace. Mastering multiple Adobe apps gives you a competitive advantage. An ACA Specialist certificate adds value to your portfolio because it speaks volumes about your knowledge, talent, and ambition.
